

# An Overview of Sentinel's Publicly Available Analytics Tools

Sentinel Community Building and Outreach Center (CBOC)

# Agenda and Learning Objectives

The purpose of this webinar is to provide an understanding of the Sentinel Common Data Model (SCDM), Sentinel's publicly available analytics tools, and how to access these resources from the Sentinel website.

## Agenda

Welcome and Introductions

Key Components of SCDM

Routine Querying Tools

Accessing Sentinel's Routine Querying Tools and Common Data Model

Conclusion

Q&A

## Objectives

-  Learn about the **key components in the SCDM**
-  Learn about the different types of Sentinel's **Routine Querying Tools**
-  Learn how to **access Routine Querying Tools and SCDM** on the Sentinel Website

# Welcome and Introductions

Work with the FDA to assess the risks and benefits of marketed medical products.

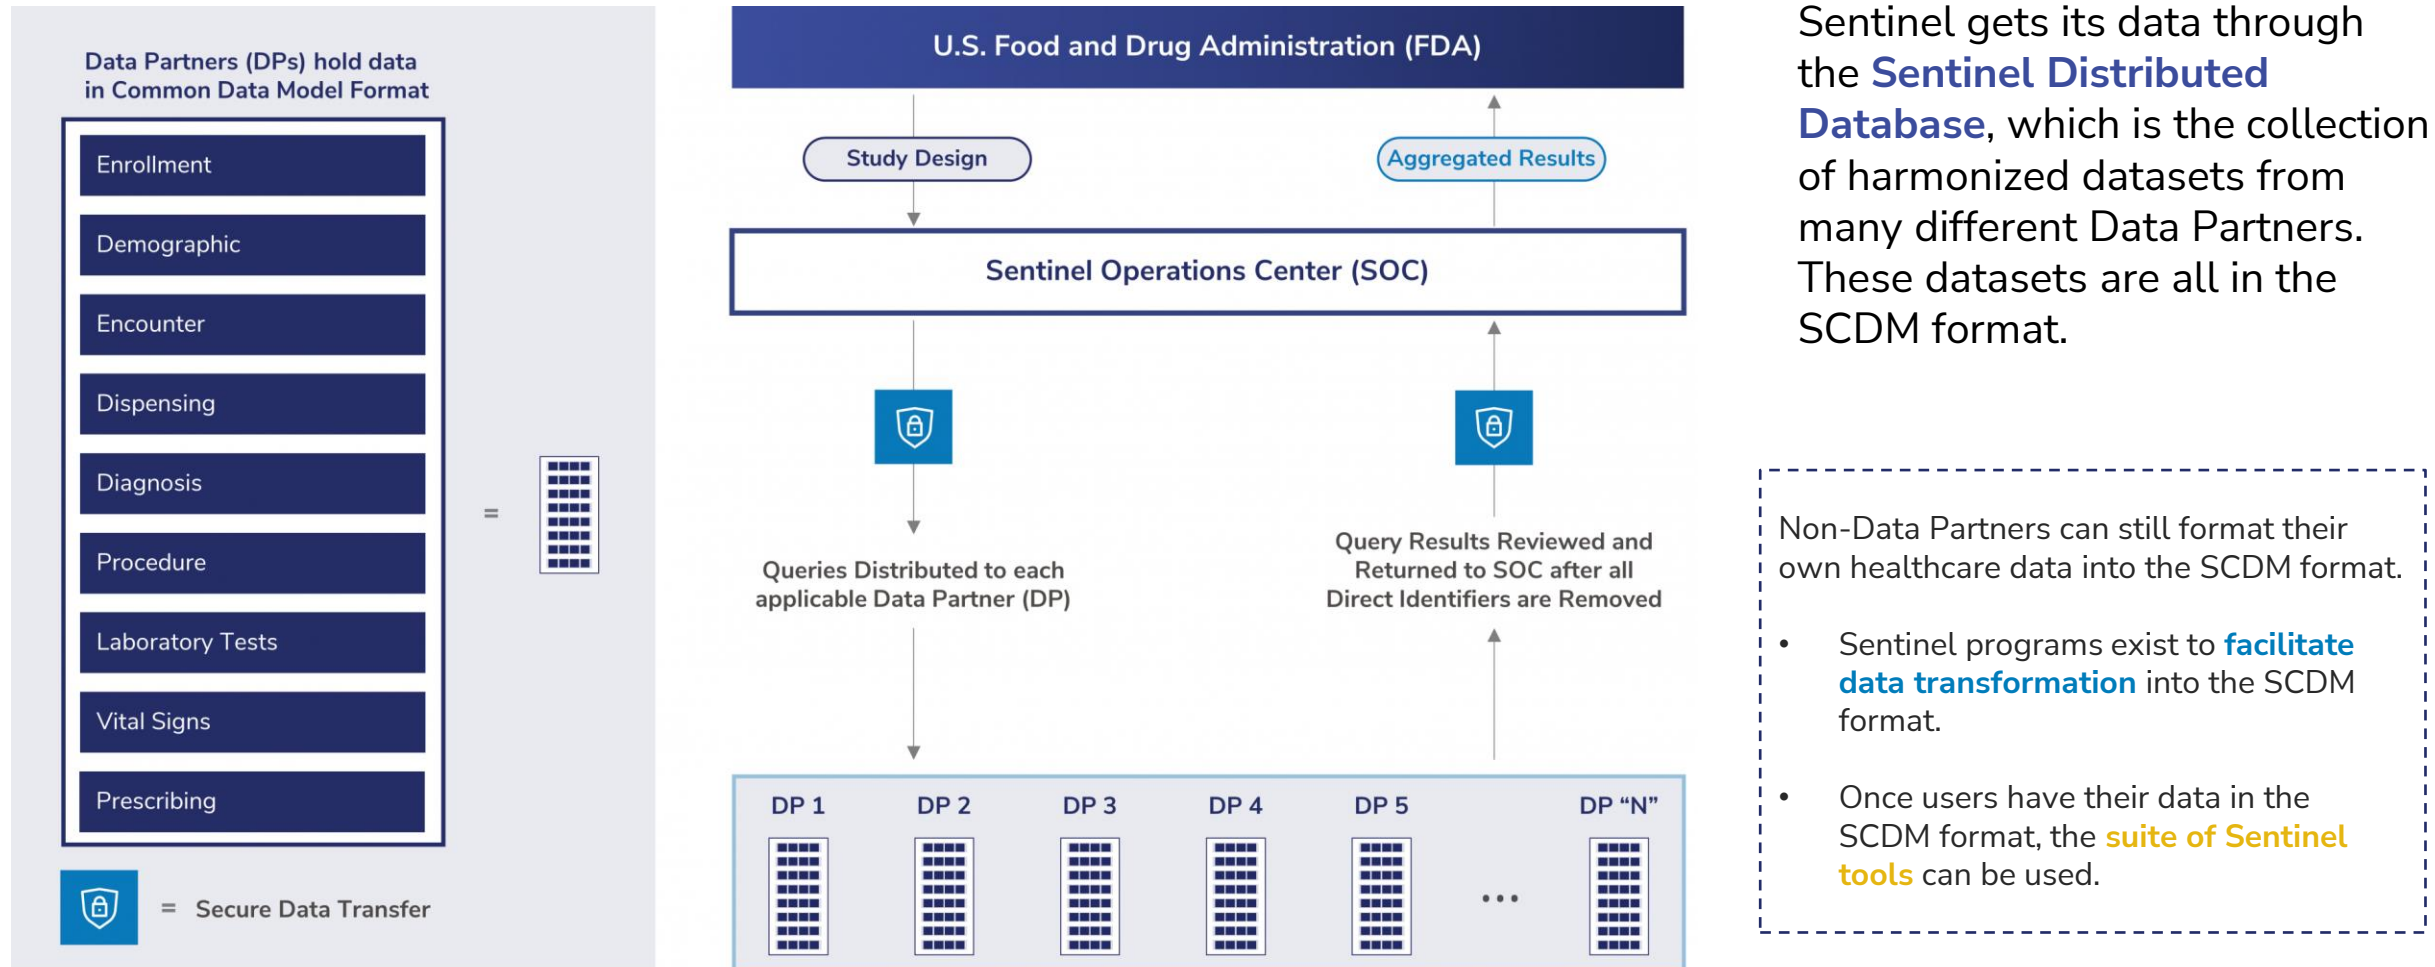

Identify, develop, and evaluate innovative methods to study drug safety and effectiveness using real-world data.

Develop and engage the Sentinel community, expand the Sentinel System's user base and strengthen Sentinel's capability to distribute knowledge based on real world data.

# The Sentinel Common Data Model

# Key Components of the SCDM

## Sentinel's Distributed Data Process

# SCDM Data Tables Overview

The SCDM incorporates healthcare data that are organized across **multiple domains**.

The SCDM is **flexible** enough to accommodate new data domains, expanding as needed for specific purposes.

## Sentinel Common Data Model

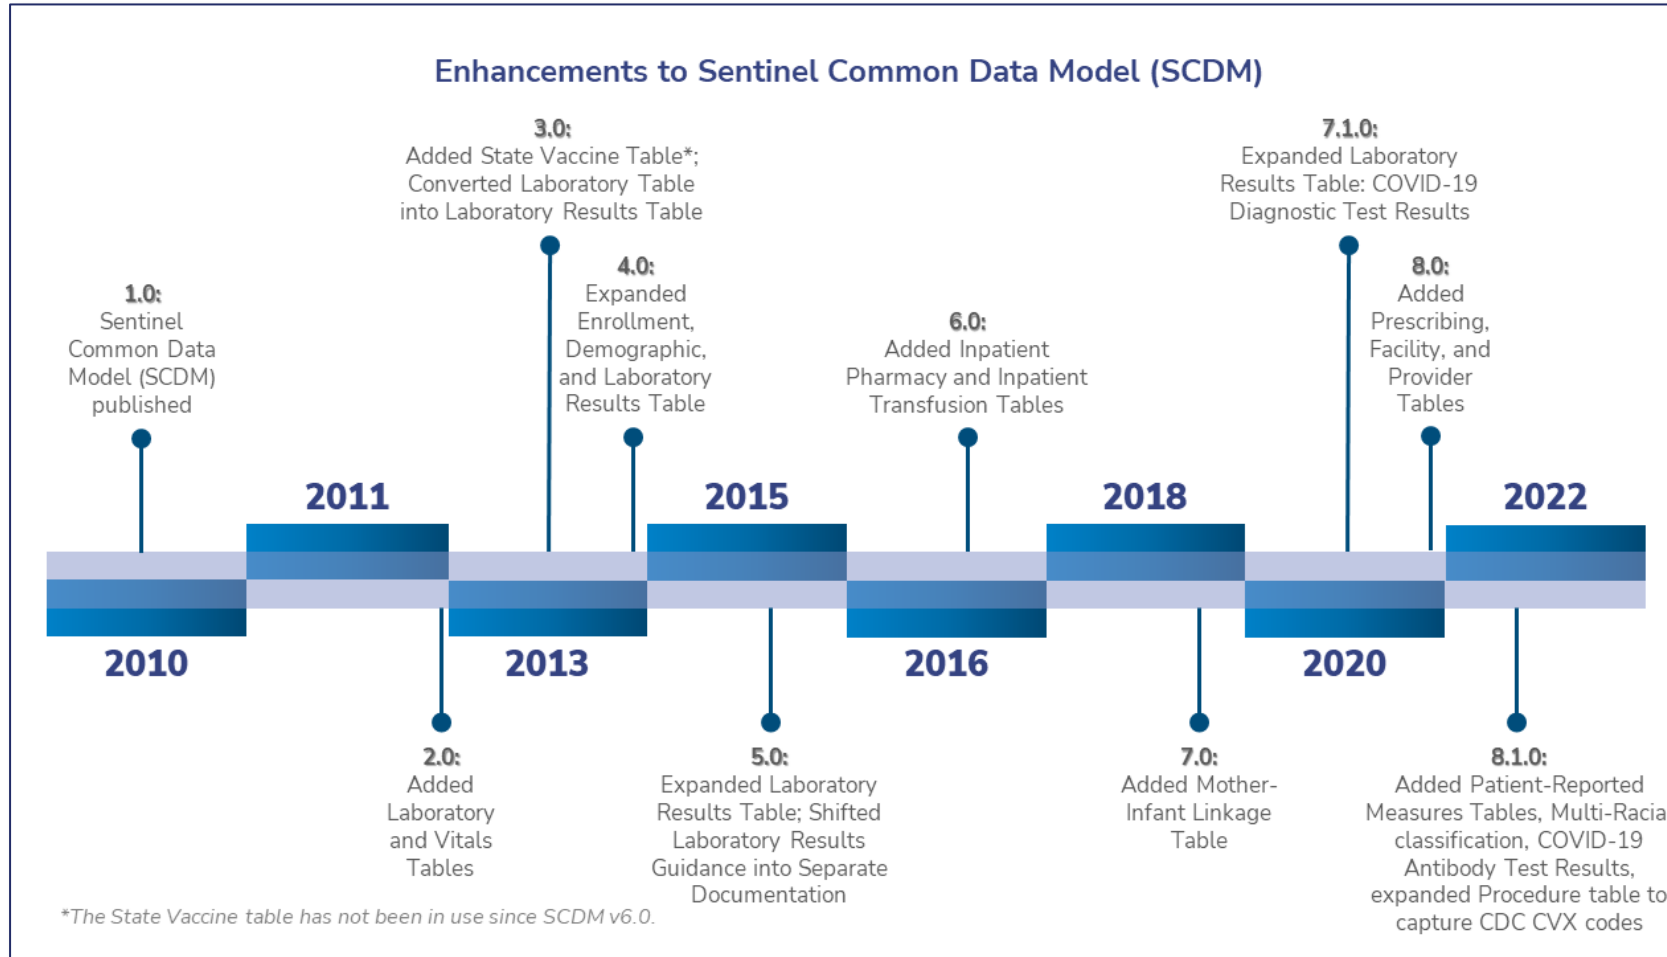

Administrative Data							Mother-Infant Linkage Data	Auxiliary Data	
Enrollment	Demographic	Dispensing	Encounter	Diagnosis	Procedure	Prescribing	Mother-Infant Linkage	Facility	Provider
Patient ID	Patient ID	Patient ID	Patient ID	Patient ID	Patient ID	Patient ID	Mother ID	Facility ID	Provider ID
Enrollment Start & End Dates	Birth Date	Provider ID	Encounter ID & Type	Encounter ID & Type	Encounter ID & Type	Encounter ID	Mother Birth Date	Facility Location	Provider Specialty & Specialty Code Type
Medical Coverage	Sex	Dispensing Date	Service Date(s)	Provider ID	Provider ID	Provider ID	Encounter ID & Type		
Drug Coverage	Postal Code	Rx	Facility ID	Service Date(s)	Service Date(s)	Order Date	Mother Admission & Discharge Date		
Medical Record Availability	Race	Rx Code Type	Etc.	Diagnosis Code & Type	Procedure Code & Type	Rx	Child ID		
	Etc.	Days Supply		Principal Discharge Diagnosis	Etc.	Days Supply	Childbirth Date		
		Amount Dispensed				Rx Route of Delivery	Mother-Infant Match Method		
						Etc.	Etc.		

Registry Data			Inpatient Data		Clinical Data		Patient-Reported Measures (PRM) Data	
Death	Cause of Death	State Vaccine*	Inpatient Pharmacy	Inpatient Transfusion	Lab Result	Vital Signs	PRM Survey	PRM Survey Response
Patient ID	Patient ID	Patient ID	Patient ID	Patient ID	Patient ID	Patient ID	Measure ID	Patient ID
Death Date	Cause of Death	Vaccination Date	Encounter ID	Encounter ID	Result & Specimen Collection Dates	Measurement Date & Time	Survey ID	Encounter ID
Date Imputed Flag	Source	Admission Date	Rx Administration Date & Time	Transfusion Administration ID	Test Type, Immediacy & Location	Height & Weight	Question ID	Measure ID
Source	Confidence	Vaccine Code & Type	National Drug Code (NDC)	Administration Start & End Date & Time	Logical Observation Identifiers Names and Codes (LOINC®)	Diastolic & Systolic BP	Etc.	Survey ID
Confidence	Etc.	Provider	Rx ID	Transfusion Product Code	Etc.	Tobacco Use & Type		Question ID
Etc.		Etc.	Route	Blood Type		Etc.		Response Text
			Dose	Etc.				Etc.
			Etc.					

\*The State Vaccine table has not been in use since SCDM v6.0.

# Enhancements to the SCDM

The SCDM was first published in 2010. Since then, updates have been implemented on a roughly annual basis.

The SCDM is **continuously evolving** to respond to changes in regulatory science and public health surveillance.

# Sentinel's Routine Querying Tools

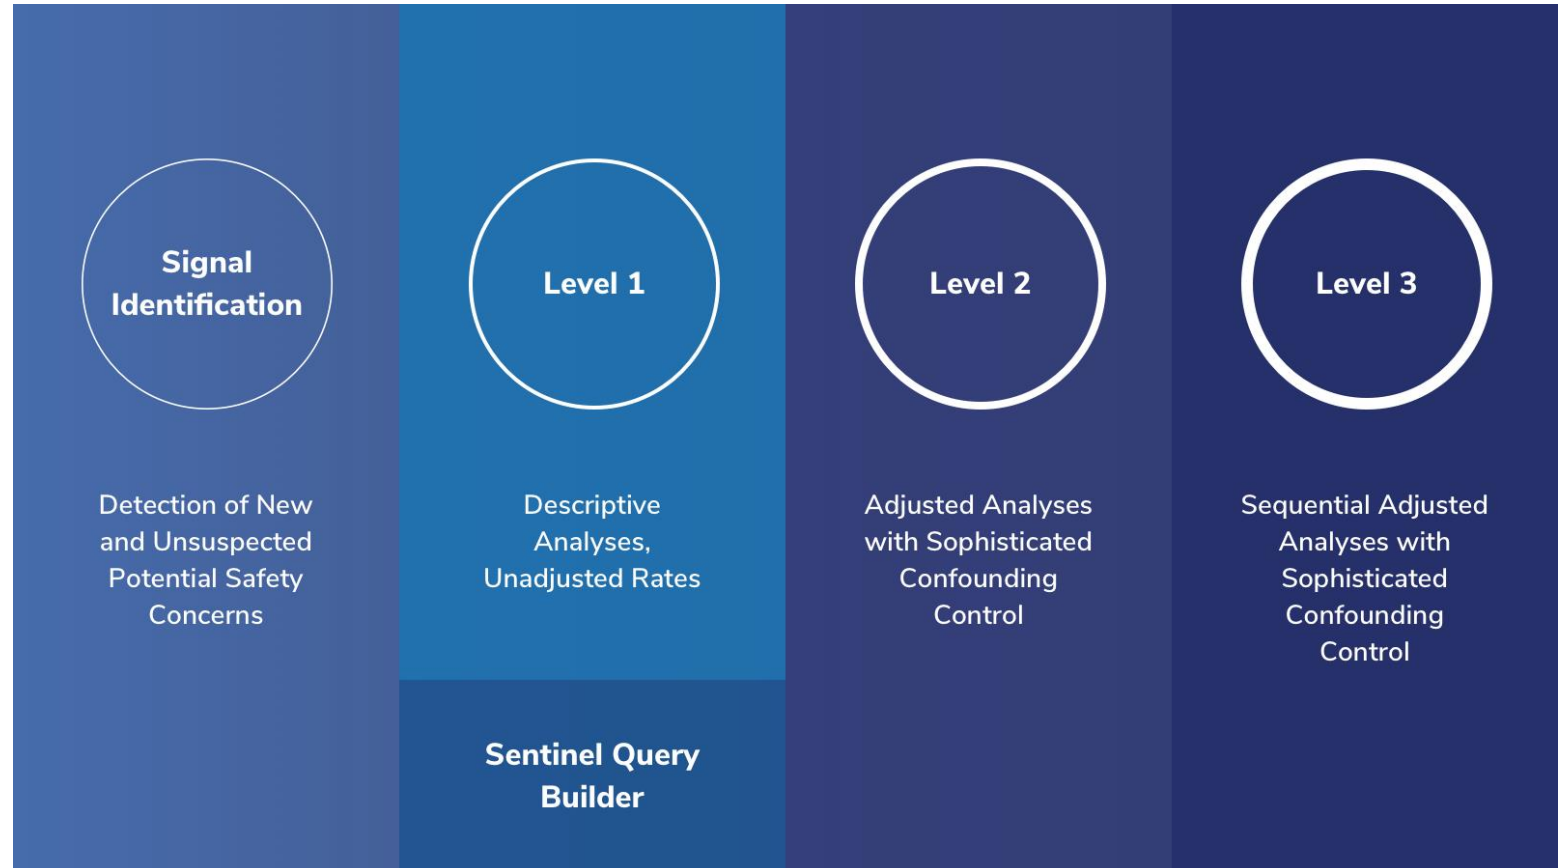

---

# Routine Querying Tool Categories

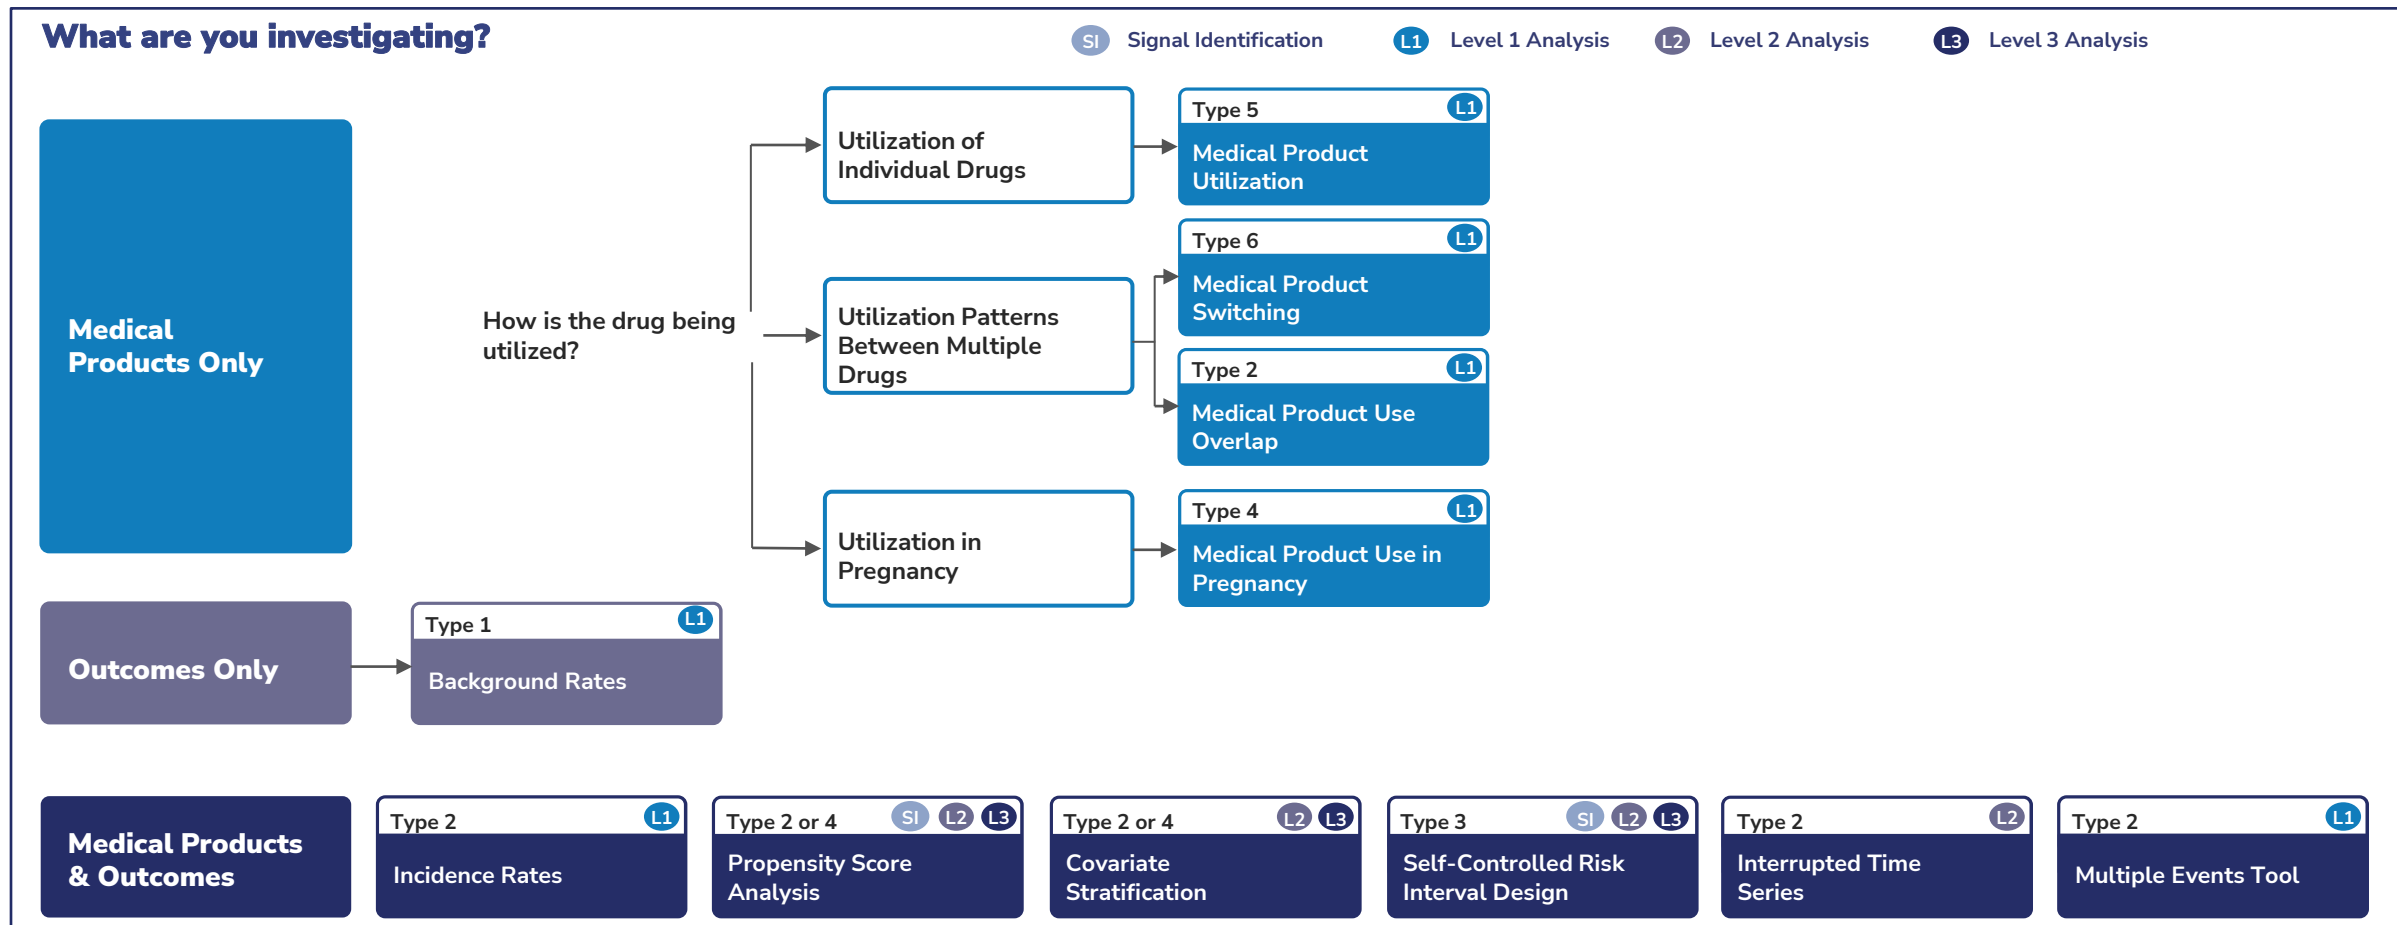

The Sentinel System's routine querying tools fall into four categories:

- SI Signal Identification Analyses
- L1 Level 1 Analyses
- L2 Level 2 Analyses
- L3 Level 3 Analyses

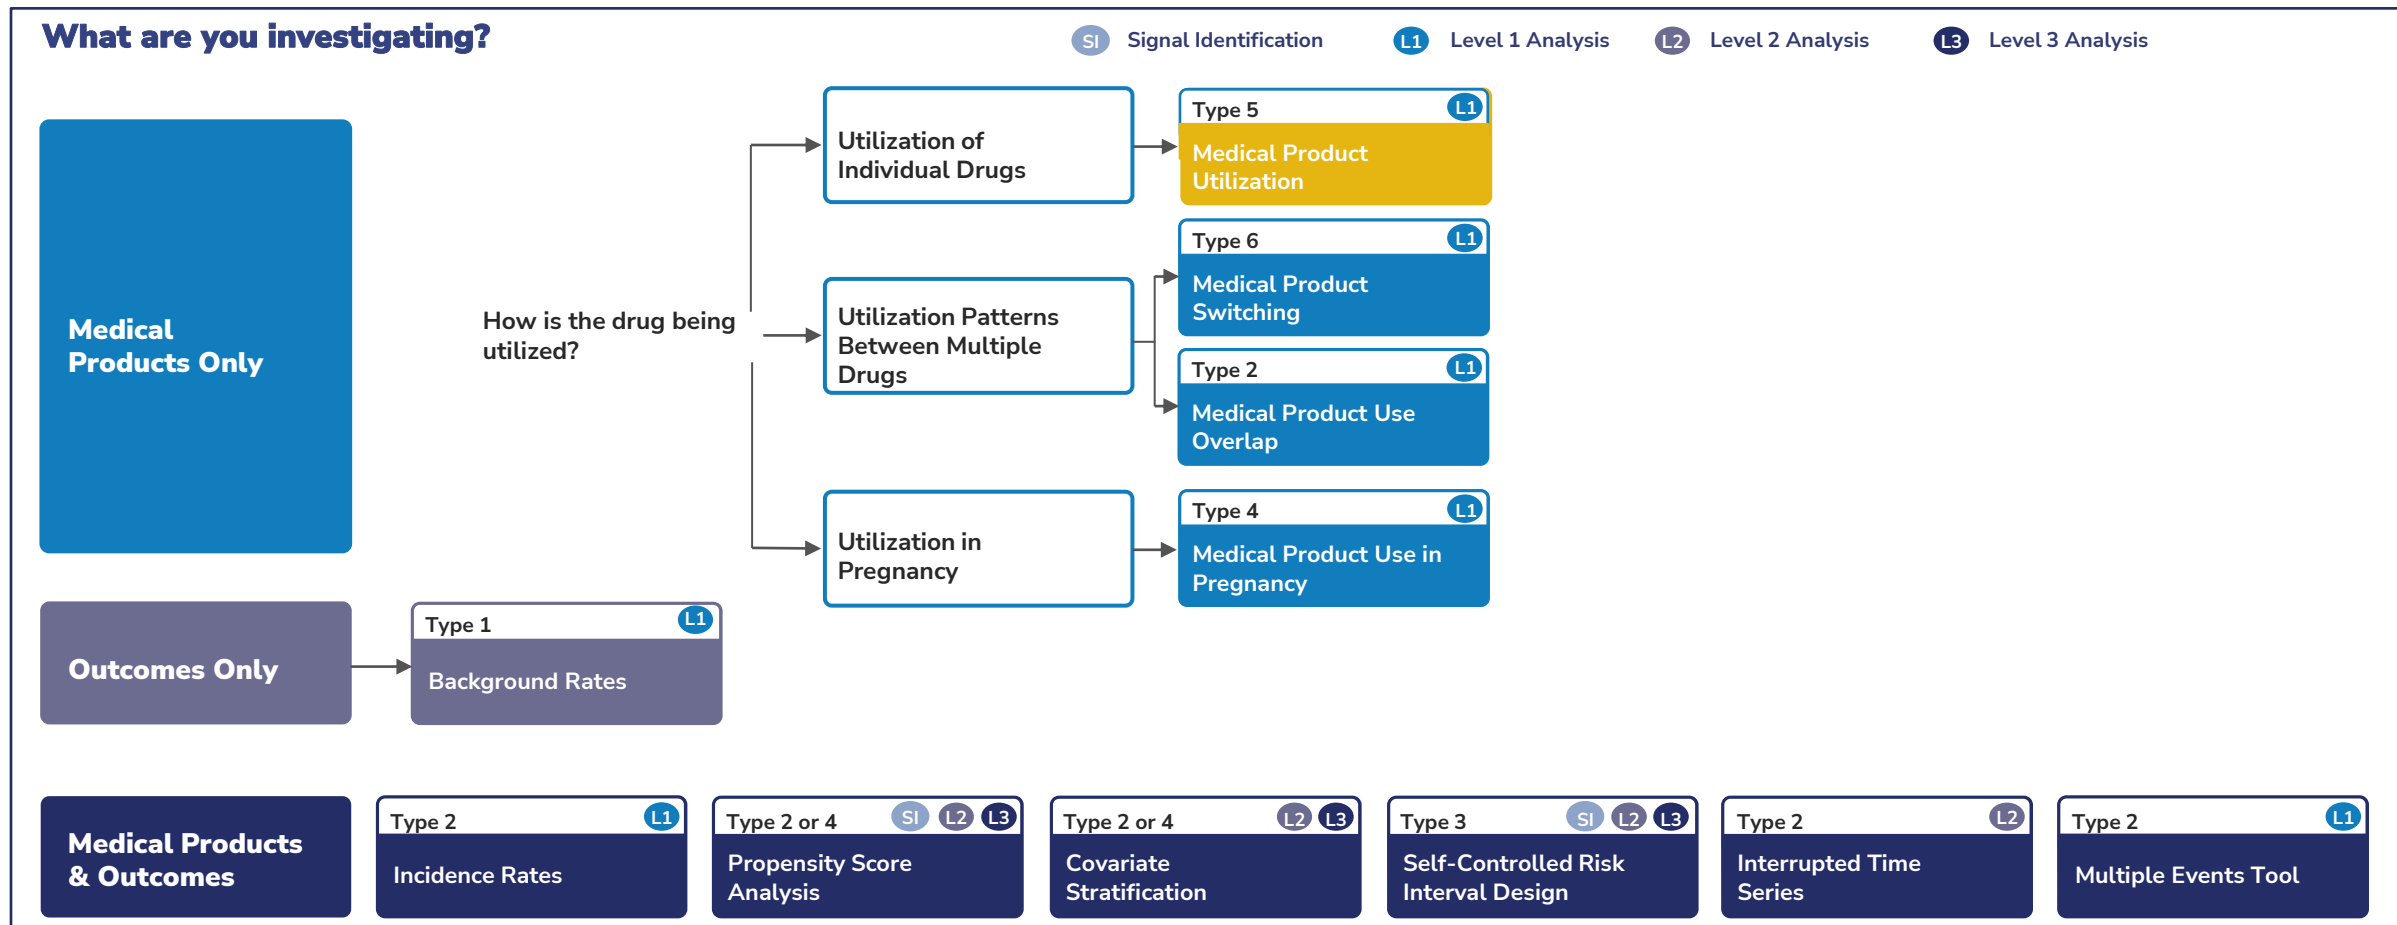

# Routine Querying Tool Types

Which Sentinel routine querying tool to use depends on the topic being investigated. These programs serve as templates that get populated based on the particular question(s) being posed.

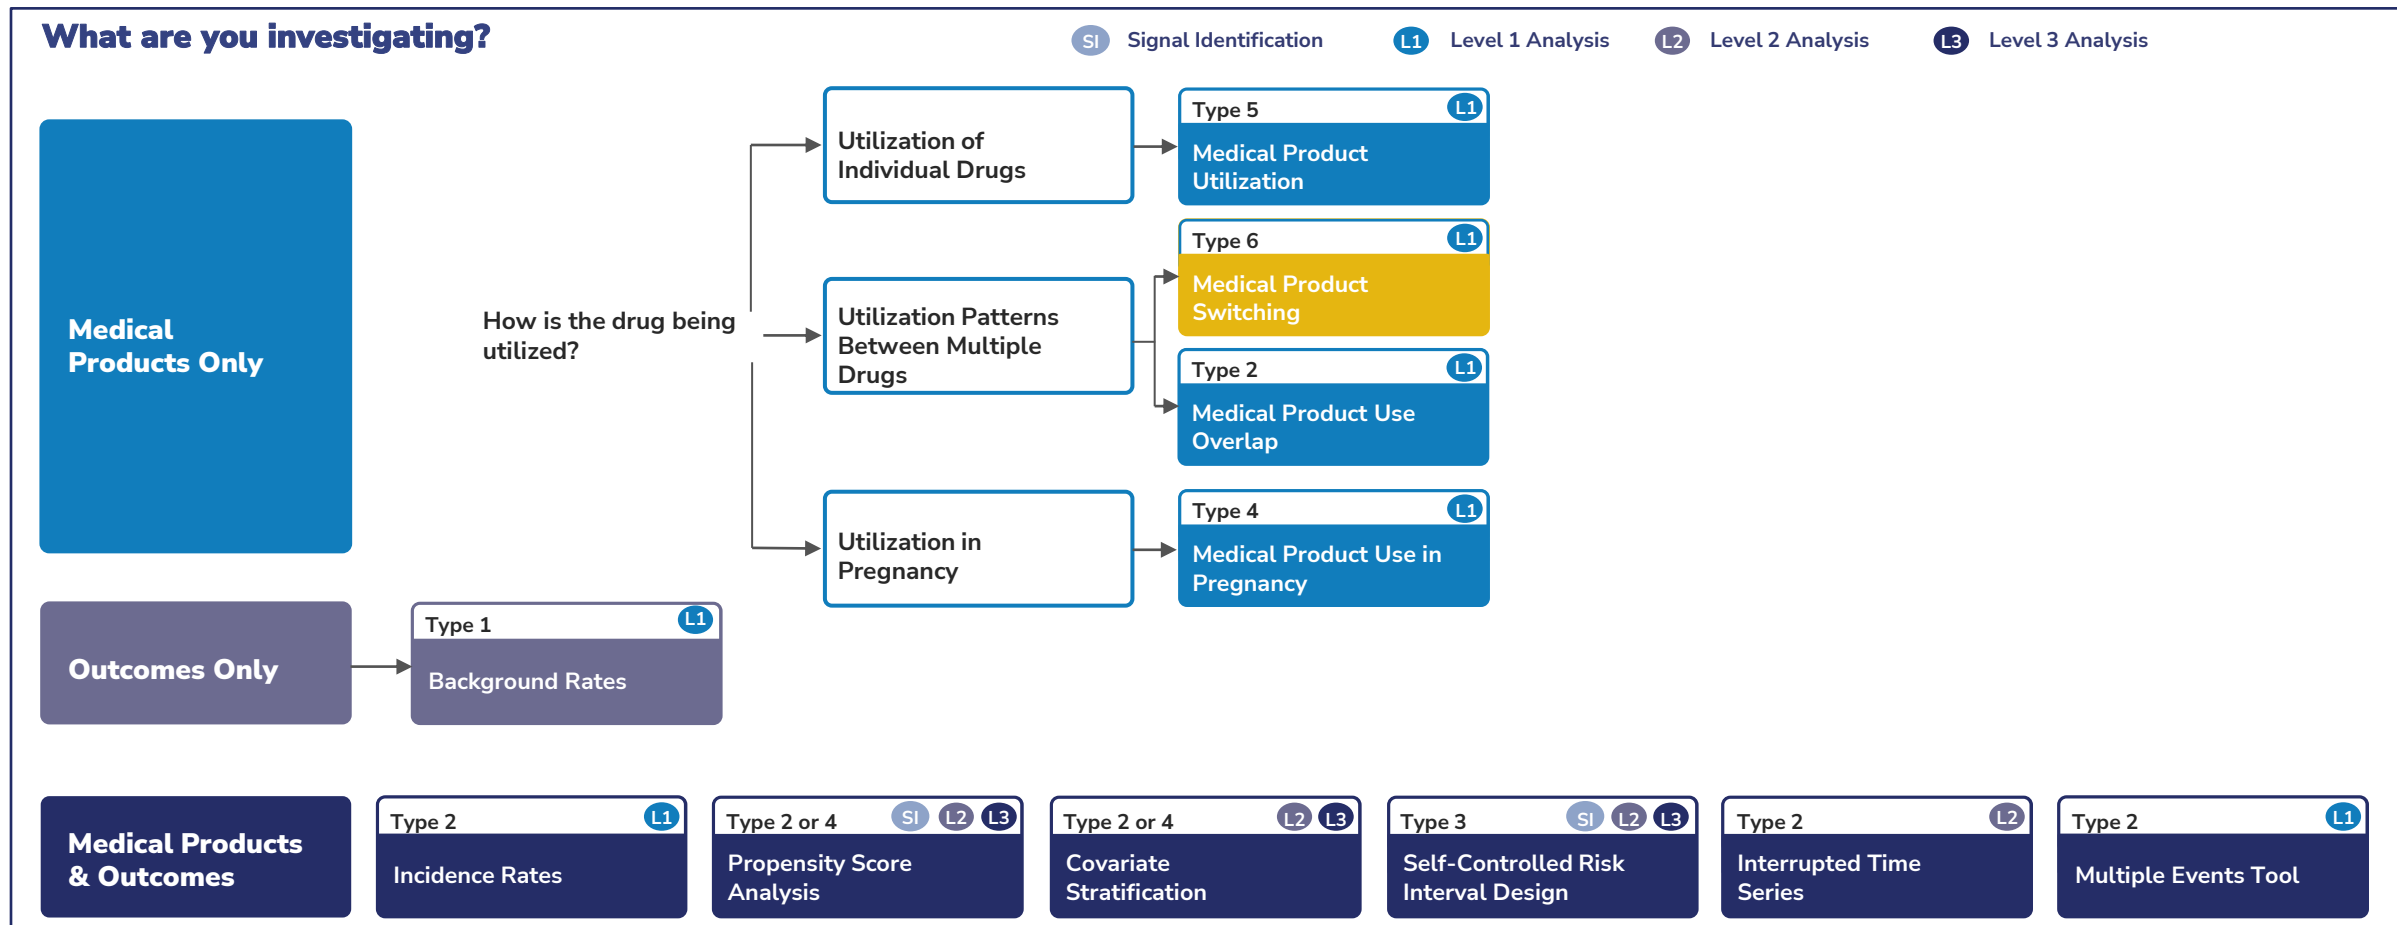

# Routine Querying Tool Types

Which Sentinel routine querying tool to use depends on the topic being investigated. These programs serve as templates that get populated based on the particular question(s) being posed.

Which Sentinel routine querying tool to use depends on the topic being investigated. These programs serve as templates that get populated based on the particular question(s) being posed.

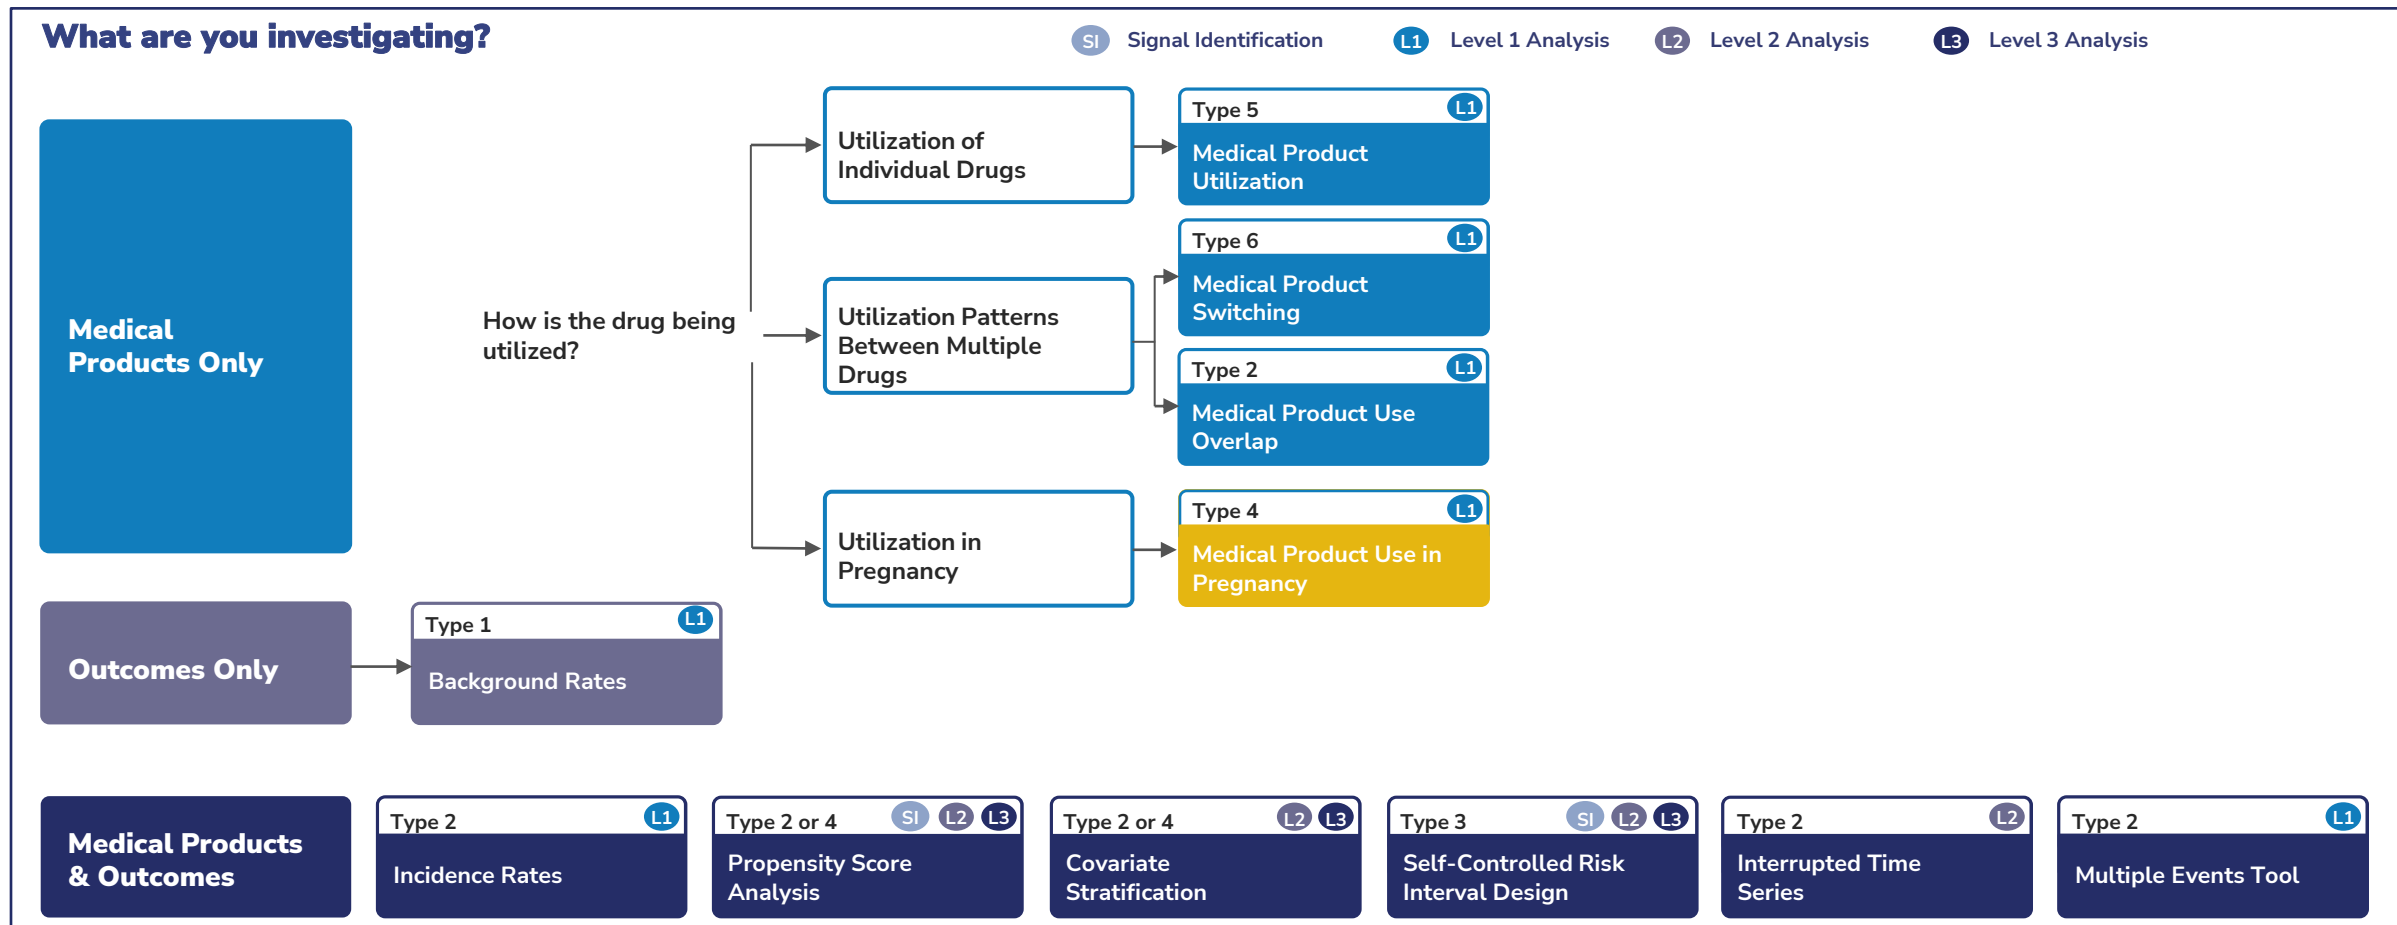

# Routine Querying Tool Types

Which Sentinel routine querying tool to use depends on the topic being investigated. These programs serve as templates that get populated based on the particular question(s) being posed.

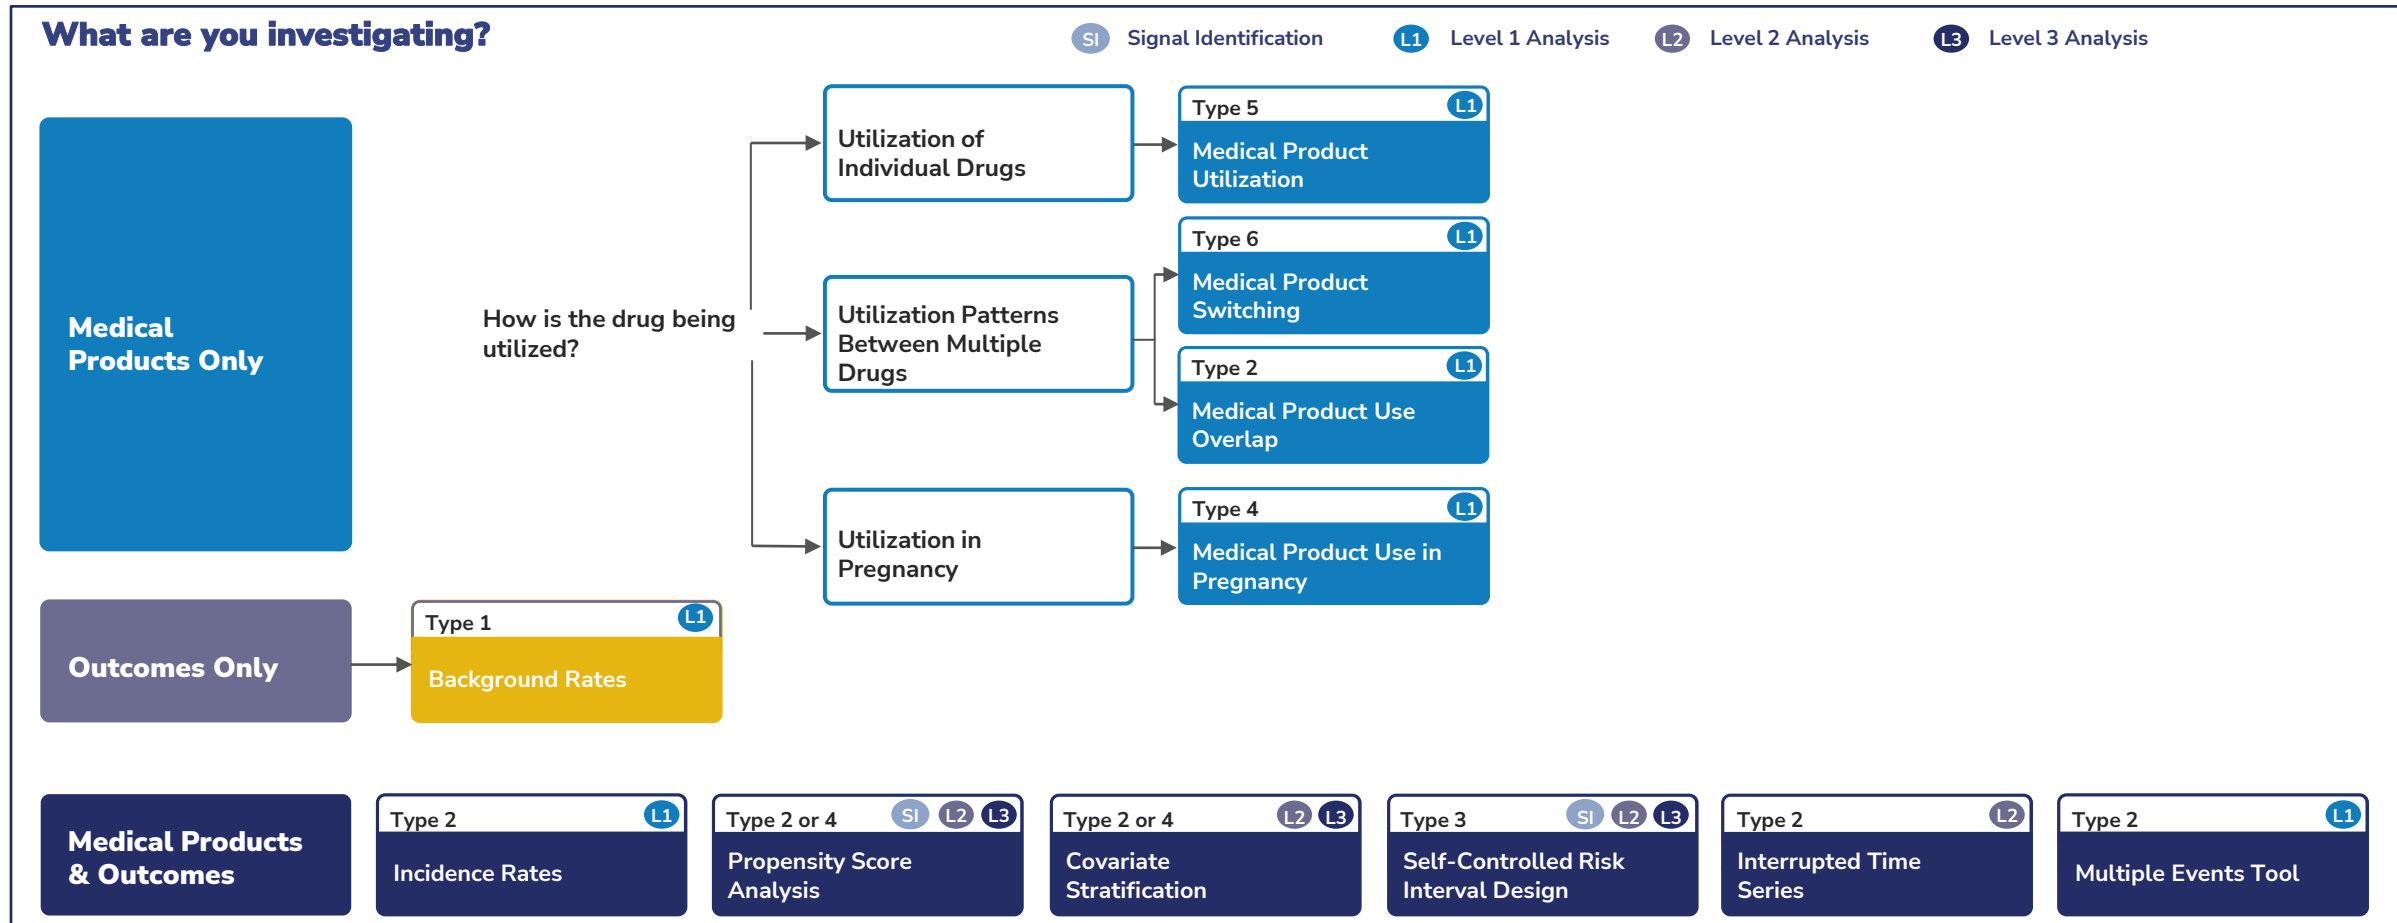

# Routine Querying Tool Types

Which Sentinel routine querying tool to use depends on the topic being investigated. These programs serve as templates that get populated based on the particular question(s) being posed.

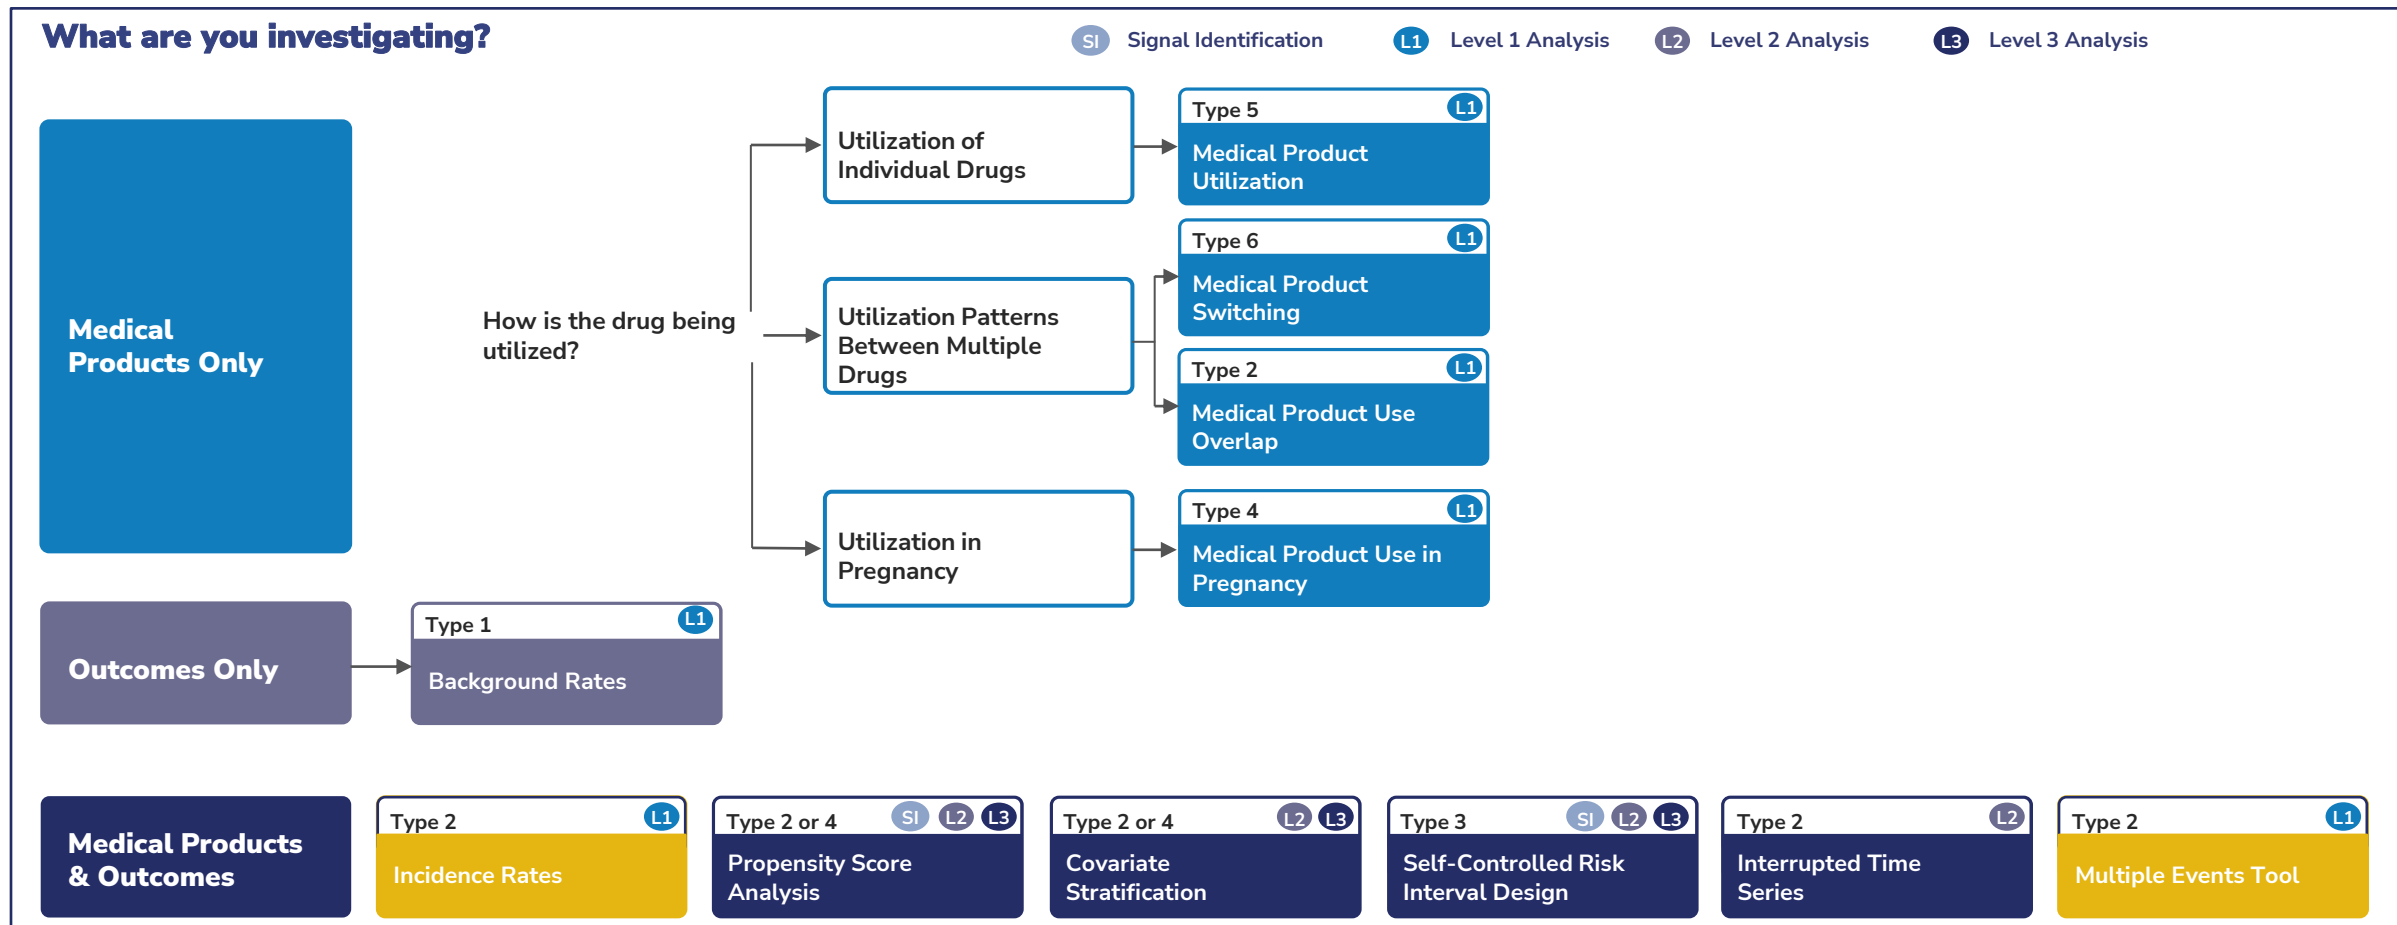

# Routine Querying Tool Types

Which Sentinel routine querying tool to use depends on the topic being investigated. These programs serve as templates that get populated based on the particular question(s) being posed.

# Enhancements to the Sentinel's Routine Querying System

Sentinel **regularly** releases enhancements to its routine querying system.

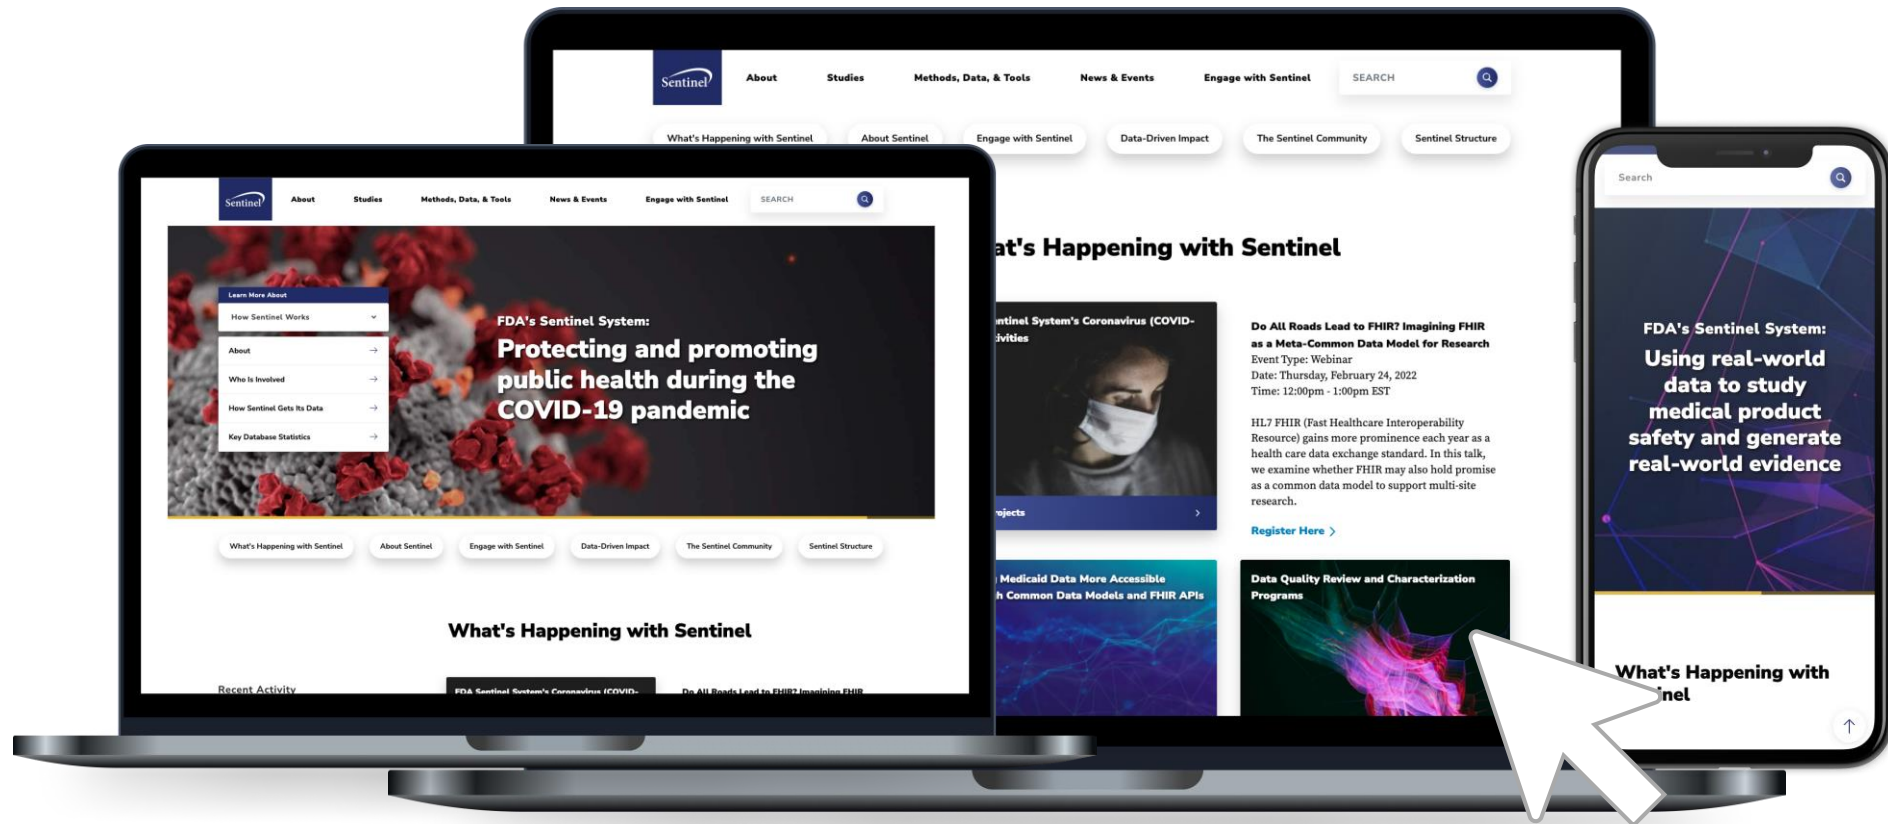

These enhancements **expand, improve, and refine** analytics and methodological capabilities. Sentinel hosts annual Training Days which highlight these new capabilities to the public.

# Accessing Sentinel's Routine Querying Tools and Common Data Model

# Accessing Sentinel's Routine Querying Tools and the SCDM

We will now demonstrate how to use the Sentinel website to access Sentinel's Routine Querying tools and Common Data Model.

# Conclusion

Today's Webinar covered three learning objectives:

## 1 Key Components of the SCDM

Users can understand the basics of the Sentinel Common Data Model on the Sentinel Website, including the foundations of the SCDM, the specific data tables within the SCDM, and the timeline of enhancements that have occurred since the SCDM was first established.

## 2 Available Analytics Tools

Analytics tools are publicly available to users on the Sentinel Website. Once users have their own data in the SCDM format, they can perform descriptive and inferential analyses using Sentinel's analytics tools. Level 1 analyses, Level 2 analyses, Level 3 analyses, and signal identification analyses were covered.

## 3 Accessing Routine Querying Tools

Users can access Sentinel's Routine Querying Tools and the data tables of the Sentinel Common Data Model on the Sentinel Website, under the Methods, Data, & Tools page. Any user with their own health data in the SCDM format may utilize these publicly available tools.

## Get Engaged with Sentinel

<https://www.sentinelinitiative.org/engage-sentinel>

### Newsletter

Receive information about the latest Sentinel updates, assessment results, event information and changes to the Sentinel System.

### Public Training

View trainings on Sentinel data, tools, or other areas of interest.

### RSS Feed

Stay informed about the latest updates to the Sentinel website by subscribing to our RSS feed.
